# RASHMI PITUWALA

UI Designer

## Profile

---

My passion is to often look for the challenges in state of art technology and to win complex situations converting them to my strengths. I hope to achieve difficult targets that are under my educational knowledge and experiences through the relevant study of the target background. I believe that it is my duty to serve the nation, society and always present myself to provide a good service to my client and to be a good team member in achieving final outputs.
